COMPANY HISTORY

Camtrace SAS was created in 2004 and is a company dedicated to video surveillance.
As a specialist in open systems and free software, Camtrace SAS has naturally chosen the path of a strong integration of its video application with the system layers.

Our customers are very varied: local authorities, cities, education, tertiary, industries, hospitals and clinics, logistics and transport, distribution, points of sale, law enforcement/security, airports.

19 YEARS OF EXPERIENCE IN VIDEO SURVEILLANCE

10K INSTALLATIONS WORLDWIDE

300.000 CAMERAS MANAGED

With a single CamTrace product line from the beginning, lifetime licenses, and the ability to migrate to new hardware, CamTrace provides «programmed durability» and drastically reduces the total cost of ownership of a medium to large video surveillance installation.
