IA cameras

Use camera intelligence (e.g. recognition of abandoned luggage) to trigger alerts for your operators.

Hypervisor

CamTrace software can aggregate information from many other software packages to create a unified interface

The screenshot displays the CamTrace Client interface, which aggregates information from various software packages into a unified view. The interface is divided into several sections:

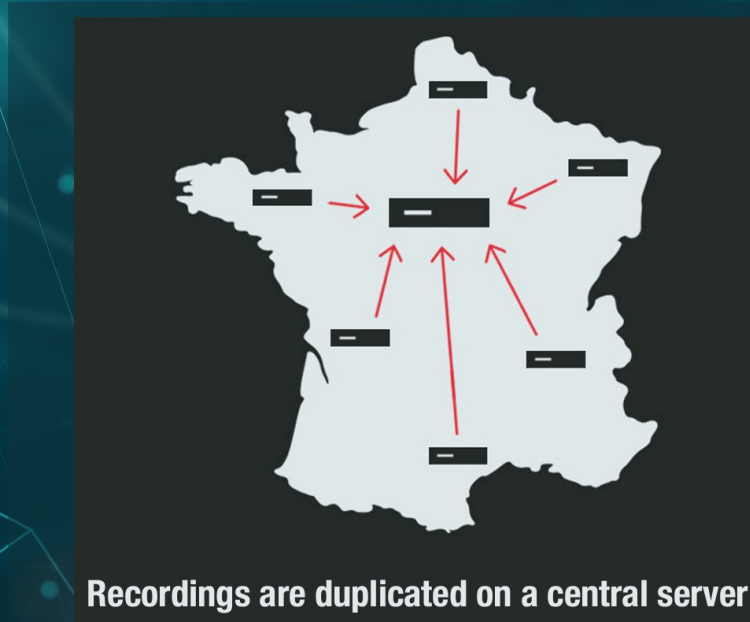

- Left Panel:** A tree view showing the hierarchy of devices and cameras. The selected device is 'Suresnes'.
- Top Bar:** Displays the current date and time: 'lun. 21 février - 10:35:56'.
- Main View:** A large map showing the location of the selected device, 'Suresnes', with a yellow line indicating the route. The map is labeled 'site camtrace'.
- Bottom Panel:** A 'Console d'alarmes' (Alarm Console) table showing a list of alarms and their details.

The 'Console d'alarmes' table contains the following data:

Date	Caméra	Evènement	Détails	Acquittement	Serveur
21 février 2022 10:35:51 CET	CCDM4EF01_52	motion	Alarme	Acquittement automatique	107
21 février 2022 10:34:24 CET	caméra_180_IA	motion	Alarme	Alarme (fin)	106-Local
21 février 2022 10:34:18 CET	CCDM4EF01_52	motion	Alarme	Alarme (fin)	107
21 février 2022 10:31:43 CET	caméra_180_IA	Alarm	Alarme		106-Local
21 février 2022 10:31:42 CET	CCDM4EF01_52	Alarm	Alarme		107
21 février 2022 10:31:20 CET	CCDM4EF01_52	Alarm	Alarme		107
21 février 2022 10:31:05 CET	CCDM4EF01_52	Alarm	Alarme		107
21 février 2022 10:30:55 CET	CCDM4EF01_52	Alarm	Alarme		107

CamTrace Archiver

The CT-Archiver is used to duplicate recordings (e.g. from each bank branches) at the headquarters

CamTrace Archiver

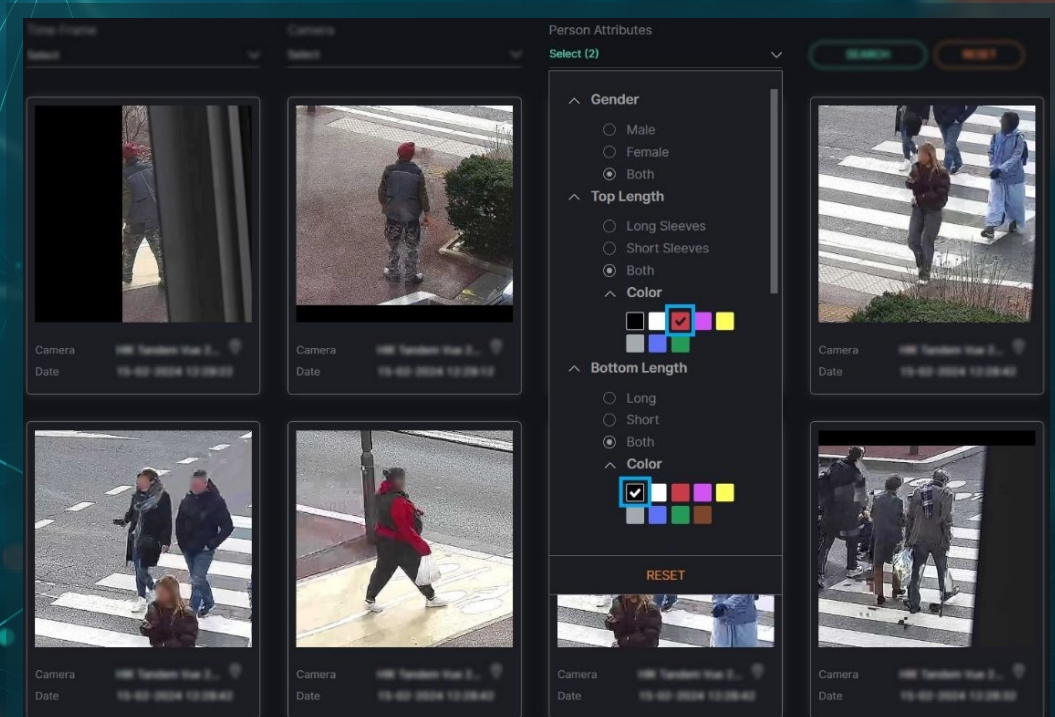

Define which cameras and which recordings are to be transferred to the headquarters.

It is possible to configure a precise time slot for file transfer.

[illegible]

CamTrace Analytics

The AI can recognize people, firearms, smoke & fire and many more features.
